AISWARIYA A

COMPUTER SCIENCE ENGINEERING GRADUATE

aishwariyaa.a01@gmail.com | +91 9025377269 | Kanyakumari, Tamil Nadu, India
LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Computer Science Engineering graduate with hands-on exposure to web technologies, programming, databases, and software development tools. Experienced in building academic and personal projects, and in debugging and testing them. Enjoys solving technical problems and learning new technologies. Adaptable, open to training, and keen to contribute to a technology-driven organization while continuing to develop technical skills.

TECHNICAL SKILLS

Programming: JavaScript (ES6+), Java (Basic)
Web Technologies: HTML5, CSS3, React.js, jQuery, Bootstrap 5, Responsive Web Design
Database: SQL (Basic)
Tools: Git, GitHub, npm, VS Code, Eclipse IDE, Vercel
Core Strengths: Problem Solving, Debugging & Testing, DOM Manipulation, Component-Based Design, Team Collaboration

PROJECTS

Lumiere Skincare — E-commerce Website *React.js, JavaScript, HTML5, CSS3*
GitHub | Live Demo

- Built a 4+ page e-commerce site (Home, Product Catalog, Skin Type Quiz, Ingredients Spotlight, Contact).
- Designed 10+ reusable React components and implemented client-side routing, reducing duplicate code and simplifying navigation.
- Implemented form validation logic for the contact and quiz forms and tested key user interactions to confirm expected behavior.

Responsive Restaurant Website *HTML5, CSS3, Bootstrap*
GitHub

- Developed a responsive multi-page website (Home, Menu, Contact) using semantic HTML5 and CSS3 with a mobile-first layout.
- Tested navigation, links, and layout across desktop, tablet, and mobile; identified and fixed 10+ UI and spacing inconsistencies.
- Standardized a shared CSS style system (colors, spacing, typography) for consistency across pages.

INTERNSHIP EXPERIENCE

Java Intern — Srishti Innovative *Oct 2024 – Nov 2024*
Technopark, Trivandrum

- Wrote and debugged Core Java programs in Eclipse IDE, covering OOP concepts, control structures, and logic-building exercises.

Full Stack AI Development — Iconix Software Solutions *Aug 2024 – Sep 2024*
Tirunelveli

- Trained in full-stack fundamentals covering frontend, backend, and AI integration concepts within the software development lifecycle.
- Applied learnings to small frontend exercises, reinforcing HTML, CSS, and JavaScript fundamentals later used in personal projects.

EDUCATION

B.E. Computer Science and Engineering *2022 – 2026*
Sivaji College of Engineering & Technology, Anna University, Tamil Nadu

CERTIFICATIONS & WORKSHOPS

- IBM SkillsBuild — Web Development Fundamentals
- Microsoft Learn — Introduction to Generative AI and Agents
- Paper Presentation — New Gen AI in Web Application Security
- Workshop — Virtual Reality Changing Engineering Industry
